Profile

I am looking for a position as a Front-end web developer. I have strong qualities of responsibility, productivity, and organization. I am open to new challenges and eager to continue learning in the field.

Courses, Skills, and Interests

- Proficient in JavaScript, HTML5, CSS3, Scss, and React.js.
- Familiar with JIRA, Figma, Agile, Scrum, Bootstrap, Git, GitHub, Visual Studio Code, Chrome Developer tools, and testing tools.
- Completed both theory and practical components of learningjavascript.online, Udemy JavaScript 2023.
- Member of GitHub and StackOverflow platforms: participated in solving JavaScript, DOM, and React issues related to web pages.
- Physically active and enjoy swimming, running, and hiking.
- An avid reader of scientific and historical literature, I enjoy traveling to different countries and discovering new cultures. I am interested in the art of photography of architecture and nature.
- Speak fluently Ukrainian, English, and Polish.
